After nurturing and developing her talent in Los Angeles where her work was featured in several gallery shows and purchased by art savvy Hollywood elites, Tali relocated to Miami. "I have always been an artist with all my heart and soul. The circles I use reflect the energy of the body. The pia ratio, 1.1618 (the number of God), has repeated appearance throughout nature. Every inch of our body, the butterfly, the shell, the daisy flower, the Star of David, it is engrained all over our DNA. This has helped me find the inspiration to continue my artwork into the next stage of my career." *Tali Almog*
